

Resume

***Dr Sameh Salah Abdelaziz
Mohamed El Dahan***

DOB: 28/01/1985

After graduating with a medical degree from the University of Ain Shams in Cairo in 2008, Dr Sameh decided to follow his sporting career, in 2009 winning the national championship in Egypt and 2010 winning third place in the CSI-W Sharm El Sheik, and 4th place in the CSI 4 -W Damascus.

It was in 2011 that he took the opportunity to join the WKD show-jumping team in Europe - a step which he knew was necessary if he was to proceed in the sport by competing regularly against the top riders at the top shows.

Since this move he has gone from strength to strength moving continuously up the Longines world rankings to where he currently lies in third position from the Egyptian riders and hopes to break the top hundred mark by the end of this year.

He is currently Competing at San Giovanni CSI 3 * with three of the WKD horses, including Suma's Zorro who he has achieved his WEG certificate of capability on already. He now plans to head to Spruce meadows in Calgary for five weeks this summer to prepare at the highest level at the sport with five 5 - star shows in six weeks - this is the top level of the sport with spruce meadows being consistently being voted the world s greatest horse show.

Sameh is extremely dedicated to his sport - he has sacrificed many things including living away from family and friends and the chance of a successful medical career to follow his dream of top level success, he is already achieved a lot since coming to live in Europe full time, including being the first Egyptian rider in the history of the sport to qualify for the World cup finals in s'hertogenbosch where he was an inspiration for many Arab riders when he qualified through to the final day.

He is highly respected by his peers in the top ranks in European show-jumping, and his trainer Commandant John Ledingham ranks him amongst one of the most talented riders he has had the pleasure to work with.
